PROFILE

I am an enthusiastic and driven professional in the field of Information Technology, with a strong passion for solving complex problems. I thrive in creative, collaborative environments and have gained extensive experience through active participation in diverse group projects. These experiences have sharpened my skills in communication, teamwork, and the effective management and delivery of complex tasks. I adapt quickly to new technologies and stay continuously informed about emerging trends in the ever-evolving IT landscape. My interests are particularly focused on advancing within the technology sector, with a strong curiosity and commitment to growth in the area of Artificial Intelligence.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer

Netlink A.E. Jan 2024 - Present

- Development & Maintenance of legacy systems using Delphi 7 & third-party components.
- Development & Maintenance of .NET legacy systems using the .NET Framework 4.5 & third-party components.
